

MILK INSPECTOR TO PUBLISH LIST

Will Try to Inaugurate Novelty
in Milk Testing.

Will Publish Comparative Quality of
Paducah Milk Every
Month.

IMPURE MILK DANGEROUS

Milk and Meat Inspector C. G. Warner is preparing to inaugurate a revolution in the dairy business of Paducah, which will serve to better the patronage of the milk men and at the same time give to the patrons the best quality of milk ever sold. Dr. Warner is no alarmist and does not criticize the butchers or dairymen, for he does not believe any dairyman or butcher would intentionally sell spoiled or diseased meat or impure milk. Here is the way Dr. Warner explained his plan to a Sun reporter.

"I have been giving the office of milk and meat inspector my entire attention and intend to monthly publish a list of the dairymen and the grade of milk sold. This I will be enabled to do by the aid of a Babcock butter fat tester which has been lying unused in a vault at the city hall for several years. The test is made by mixing the milk and sulphuric acid and working it in the tester.

"I will make tests of milk and keep an account of the per cent of butter fat and will make a list every month of the comparative quality of milk and this will serve to make the dairymen more careful.

"Milk causes more deaths among infants than any other thing they eat or drink, many times because the milk is sold warm. In New York the health authorities recently increased the milk inspectors' corps and passed an ordinance requiring the dairymen to keep their milk on ice and at a temperature not higher than 50 degrees. Germs breed in warm milk and when drunk by infants often cause tuberculosis of the bowels. You can go to any physician in the city and get this verified. Doctors say 'stomach trouble,' or 'bowel complaint,' but if sufficiently urged, will admit it is tuberculosis of the bowels and nine times out of ten it comes from germ breeding milk. Cold milk will not breed germs and I will see that the milk is kept at the proper temperature.

"I have found some spoiled and diseased meat," Dr. Warner said, "but immediately condemned it and saw it thrown away. Butchers value their business and reputations too well to sell such meat intentionally." Dr. Warner is a graduate in the milk and meat inspection business, having taken a thorough course in his veterinary training, and it is believed will make the city a most serviceable officer.

CURES SCIATICA.

Rev. W. L. Riley, L.L.D., Cuba, New York, writes: "After fifteen days of excruciating pain from sciatica rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment; the first application giving me first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c, \$1.00 DuBois, Kolb & Co.

A housing reception was tendered the Hon. Thomas Taggart, new chairman of the National Democratic committee, at Indianapolis last night.

MOVE TOMORROW

Trainmaster and Dispatchers
Will Change Offices.

No Trains Yet Dispatched From
Eleventh and Broadway.

Tomorrow morning at 8 o'clock the offices of Trainmaster Henry Scheuing, Chief Dispatcher J. T. Cheek and General Yardmaster Stonebreaker with all assistants and clerical forces, will be removed to the new quarters at 11th and Broadway, formerly the old freight house.

The tinner recently finished the roof and today the painters are placing on the final coat of paint. Lineman John O'Bryan and force today finished the wiring and tomorrow morning the instruments will be cut in and the train dispatching done out of that office. Dispatchers say the report that the first train order was telegraphed out of the office yesterday afternoon is erroneous as the instruments were not even connected up yesterday and will not be working in the train service until tomorrow.

The offices will not be straightened out before the end of the week, much preliminary work being necessary, but the dispatchers and other members of the forces will be glad to get into the new quarters as it saves much time and worry from the long walk they daily have to take with the quarters located as at present.

SON DIES

EFFORTS BEING MADE TODAY
TO LOCATE M. ROSENBLATT.

A telegram has been received here giving news of the death of Sam Rosenblatt in Toledo, O., and asking for information as to the whereabouts of M. Rosenblatt the young man's father, and a well known cigarmaker.

Mr. M. Rosenblatt sent his family to St. Louis several weeks ago, following himself in two weeks. He intended returning he stated, but has not arrived. All efforts to locate him in St. Louis have failed and the body is being held pending news from the father.

FIVE WEEKS

IN WHICH THE WOODMEN OF
THE WORLD WILL GET
READY.

The Woodmen of the World are now hard at work on their carnival, which is only five weeks off. The executive committee has twelve members and Mr. Jack A. Calloway is chairman, Mr. George Broadfoot treasurer and Mr. Albin Barkley secretary. Mr. Brown, of the carnival company, is now here and will remain, sending to St. Louis for two of his men to come and assist in the preparations for the event which is to be the week of September 5.

CONSCIOUS NOW

AN ILLINOIS CENTRAL EMPLOYEE
RECOVERS HIS SENSES.

Arthur Clubine, white, a section hand employed on the I. C., north of Cumberland river bridge, has recovered his senses after more than three days unconsciousness and will be out of the railroad hospital this week.

Clubine was thrown from a car and struck on his head. He was rendered unconscious and remained in this state until yesterday afternoon, when he recovered. He is much better this morning and the doctors say is not seriously injured.

AN EXCURSION TO EVANSVILLE

The I. C. has announced an excursion to Evansville and return, two days' stop over, on the 16th, leaving Paducah on the morning of that day and leaving Evansville the night of the 17th. The fare will be \$1.50 for the round trip.

The concrete sidewalks are being laid along Fourth street, greatly improving the street. The public spirited citizens put down the concrete. Very few belong to the class who put down the antiquated brick.

Keep ants and all forms of insects out of your house with our DALLMATION INSECT POWDER.

TEACHERS WERE ELECTED BY BOARD

Janitors Also Chosen and Salaries Fixed.

Superintendent Lieb Makes a Report
Containing Many Good Recommendations.

SEWER CONNECTIONS NEEDED

The board of education met last night with all members present except Trustee Mattison.

The first work done was to finish the election of teachers which resulted as follows: Misses Mary Gray Cummins, Fayetteville, Tenn.; and Esther Boyd, of Mayfield; Fannie McLaughlin, of Tennessee.

Prof. Howard Sullivan was elected teacher of science, the new department added to the schools.

The committee appointed to select sites for school buildings in the north and south ends of the city failed to report and was given more time.

The election of janitors resulted as follows: Clarence Archer, colored, Washington building; Dave Albritton, colored, Jefferson building; W. C. Lee, white, Longfellow building; G. W. Webb, white, Lee building; Missouri Stone, colored, Franklin building; W. E. Freezer, white, Langstaff building; Sam Johnson, colored, Lincoln building; and T. W. Wells, colored, Garfield building.

Wells will be paid \$1 per month more on account of the addition of another story to the building, making more work for him. Archer of the High school received a raise to \$60 per month on account of the great amount of work and faithful services.

The matter of assigning teachers was left open and will be done probably at the next meeting.

Superintendent O. M. Leib last night furnished the school board with a complete report for the last year's work in the schools and his report made recommendations for the betterment of the schools in many ways. Superintendent Leib has been a diligent worker and did not take a vacation this summer because of the work necessary to prepare the schools for the coming term.

In the report he set out the necessity of sewer connections, saying that one-fifth of the children in the public schools attend the high school and will be benefitted by the extension of the sewers, if made. The sewer is within three squares of the building and could be extended with comparatively little cost.

Superintendent Leib also advocated strongly more extensive play grounds, manual training and other features of recreation intended to better the pupils. Superintendent Leib's ideas and methods are up-to-date and it is hoped his recommendations will be favorably considered.

COMMITTEEMAN TO RETURN.

Mr. Urey Woodson, who was elected secretary of the National Democratic committee recently, writes from New York that he will return to Paducah Sunday.

The strong team from Mayfield will play the L. A. L. next Sunday afternoon at the league park and a good game is assured. The local amateurs lost to Mayfield by the score of 4 to 1 a short time ago, and claim they will turn the tables. Perry, Mayfield's pitcher is very speedy, and is considered good enough for the K. I. T.

PADUCAH BOY

NOW IN COMMAND OF A CRACK
BAND AT ST. LOUIS.

Many Paducahans will be interested to know the whereabouts of Captain Geo. O. Saffarans, formerly of Paducah. Captain Saffarans went to West Point from here, graduated, and has since been in the army. During the Spanish-American war he was a major in the Third Kentucky. Since then he has been in the Philippines and is now at St. Louis. Yesterday's Globe Democrat says:

The military band that led the procession into the World's Columbian Exposition at Chicago and opened the fair there arrived at the World's fair grounds yesterday and will play in front of the government building for the next month.

This historic band belongs to the Second Infantry, United States army, and besides belonging to one of the most historic regiments in the army, is ranked among the best military bands in the country.

It has been stationed at Fort Logan, Col., for the past three months, where it was marched overland in snowstorms from Cheyenne, Wyo.

The band is composed of thirty-five pieces and is under the command of Captain George C. Saffarans, adjutant of the regiment, and Battalion Sergeant Major Wm. McGregor. Albert Jacobsen is bandmaster and has served with it in that capacity in the Philippines.

WILL SEND PASSES

THE ILLINOIS CENTRAL WANTS
ALL THE STOCKHOLDERS TO
ATTEND ANNUAL MEETING.

The annual meeting of the Illinois Central is announced to take place in Chicago October 19.

The Illinois Central goes on record in its notice against the practice which large corporations have of transacting practically all important business by proxy of stockholders, and the road will issue to every man who holds as much as one share of its stock a pass from his nearest station on the Illinois Central to Chicago and return.

This is done to secure a large personal attendance, so that the wishes of all the stockholders may be expressed even in the details of the business to be transacted. The courtesy will be extended to all persons over twenty-one years of age who are on the company's books at the close of business September 27. The pass will be good for four days preceding and four days following the annual meeting, but must be properly stamped and countersigned during business hours. No more than one person will be granted transportation on any block of stock on the company's books.

RAILROAD EARNINGS.

The gross earnings of thirty-seven roads for the third week in July, as compiled by the United States investor, show \$7,628,366, against \$7,731,432, for the third week in July, 1903, a decrease of \$103,066. Eighteen roads show increases and nineteen decreases. Since July 1 the roads referred to above earned \$23,737,548, an increase of \$1,193,094 over the \$21,544,454 reported for the corresponding period last year. For the longer period seventeen roads show increases and twenty decreases.
